Obituaries, Burial Records, Funeral Records and Luchsinger Records - \$5.00 minimum; \$1.00 each after 5 records

Vital Records: Death & Birth Certificates - \$5.00

All Other Copies: \$.50 Members: \$.25

Research Fees:

First ½ hour is free

\$20 will be charged for each hour after initial ½ hour

Research at the Monroe Public Library: \$10/hour

Any other research required outside of the Research Center: \$20/hour

Shipping Costs: 1-4 pages \$1.50; Other rates may apply

The first ½ hour of free research is based on what we have available in our Research Center. We do not search websites available for public research.

Please be specific about what research you have done (such as census records, Find A Grave, etc.) and what you would like us to research. We do not want to be charging you for duplicate research.

Please include with any research request:

- Full Name of Individual to be researched
- Known Dates & Locations of birth, death, etc.
- Full Name of Father and Mother (if known) of Individual
- Spouse's Maiden Name
- Marriage date and location
- The Type of Record(s) Sought (death, birth, etc.)
- Date of Record Sought (known or approximate)

We work on a pay as you go basis so if you desire us to research more than the first ½ hour please let us know and we will send an invoice.

Expect Us to Store, Share and potentially Publish Your Research Results - Of course we agree not to share information about any living relatives with anyone, but the underlying information in our Research Center is public domain and available to other researchers. We often keep a file of past research projects as a resource, in the event you return to commission additional research OR, as a starting point, if a relative requests similar research. Unless you specify otherwise, we put researchers with common family interests in touch with one another so that they can share their genealogies.
